Portfolio

## PROFESSIONAL SUMMARY

Full-stack software engineer specializing in React, Next.js, Node.js, and PostgreSQL. Computer Science graduate with hands-on experience shipping production-grade features including realtime messaging, authentication, and database-driven web applications. Strong algorithmic foundation with 600+ DSA problems solved and GATE 2025 (CSE) qualified.

## TECHNICAL SKILLS

**Languages**
JavaScript,C++, Python, SQL, C

**Frontend**
React.js, Next.js, Tailwind CSS, Chakra UI

**Backend**
Node.js, Express.js, REST APIs, Next.js Server Actions

**Databases**
MongoDB, PostgreSQL, Supabase

**Core CS**
Data Structures & Algorithms, DBMS, OS, OOP

## Professional Experience

**Software Development Intern,** *TechNova Solutions Private Limited, Noida* 06/2025 – 06/2026

- Worked with the Software Development Team on designing, developing, testing, and maintaining web-based applications.
- Developed front-end features using **React.js, Next.js, and Tailwind CSS**.
- Built and integrated **REST APIs** using **Node.js and Express.js**.
- Worked with databases including **PostgreSQL and MongoDB**.
- Implemented responsive user interfaces and improved application performance.
- Collaborated with cross-functional teams in an Agile environment.

## PROJECTS

**Next.js Web Calculator Suite** , *Next.js, React, Tailwind CSS, Node.js, Resend API* 05/2026 – Present

- Built a full-stack Next.js application featuring 40+ calculators, utilizing complex React state management for real-time, client-side data processing.
- Designed and developed a responsive, premium user interface from scratch using Tailwind CSS.
- Implemented secure backend workflows using Next.js Server Actions and the Resend Node SDK to parse incoming FormData and automate transactional email delivery.

**NextMatch** , *Full-Stack Realtime Dating Platform*

- Tech Stack: Next.js, React.js, Prisma, PostgreSQL, NextAuth, Tailwind CSS, shadcn/ui
- Built a realtime chat system on Supabase Broadcast + Presence with sub-200ms message delivery, typing indicators, read receipts, and online presence.
- Bridged NextAuth to Supabase Realtime via server-signed HS256 JWTs; implemented
- optimistic UI with multi-tab sync and mutual-match authorization in server actions.

**GitHub Tracker** , *Developer Analytics Dashboard*

- Tech Stack: React.js, Chakra UI, GitHub REST API

- Built a responsive analytics tool to fetch and visualize GitHub user data — stars, forks, watchers, and activity metrics.
- Optimized REST API calls to cut redundant requests and designed a structured Chakra UI layout for fast, accessible browsing.

## ACHIEVEMENTS

**Solved 600+ Data Structures and Algorithms problems across competitive platforms**

- LeetCode : Contest rating (1517)
- CodeChef : 3-star (1507)
- GeeksforGeeks : Best Institute Rank (58)

**Qualified GATE 2025 (Computer Science and Engineering)**

**HackerRank 5-star certifications in C++, Python, and SQL**

## EDUCATION

**B.Tech — Computer Science & Engineering** 2020 – 2024 | Jalandhar, India
*Lovely Professional University (LPU), Jalandhar*

- CGPA: 7.03

**Higher Secondary Education (Science),** *Marigold Public School, Delhi* 2017 – 2019 | Delhi, India

- 64.2%

## CERTIFICATIONS

- Data Structures & Algorithms (GeeksforGeeks)
- C++ Programming: Beginner to Advanced (Udemy)
- Oracle SQL (Udemy)
